

Discussion starters Chapter 8

1. What is your understanding of the biblical prophecies about and exhortations to pray for Israel and the city of Jerusalem? Has this chapter challenged any of your thoughts or helped you understand anything in a new way? Ask God to show you how to pray for Israel.
2. What do you think about praying for the nations? Does God have plans for nations or just for individuals? Should we pray for our own nation and other nations?
3. What do you think of Charlie's suggestion that each nation (and sometimes state) has its own particular character and hence its own purpose in God's plan? What are the characteristics of your nation/state? What might be the redemptive purpose of those characteristics? Pray that God would redeem them in your land.
