Questions for discussion or reflection Session 5 (Chapter 6)

Can you think of a time when someone was incredibly generous to you? What was it like?

Do you think it's always wise stewardship to save?

What do you think about giving away all your money?
What advice would you give to a Christian friend if they told you God had told them to give all of their money away?

Should the better off in our churches support those on benefits or low wages so that no one goes without?
